

## Environmental Policy

3D Coaching Limited is committed to leading the coaching industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by being as paperless as possible, and using public transport or car sharing where possible.
- Targeting our work in areas where we have regional staff
- Work virtually from satellite bases and by telephone or teleconference where possible
- Insisting that no electronic equipment is left on standby
- Selecting suppliers who minimise carbon impact and using local suppliers in our building where possible
- Selecting an office building which is energy efficient
- Actively promoting recycling both internally and amongst its customers and suppliers
- Meet or exceed all the environmental legislation that relates to the Company
